GoPad Secure

Safe and Secure at School

What is GoPad?

GoPad is a paperless attendance tool with a security focus.

It has three modules:

Teachers

Take vital student information with you on field trips or to sports activities
Receive automatic updates for student medical and contact information
Eliminate the need for heavy paper binders
Securely dismiss children and identify approved caregivers by photograph
Maintain arrival and dismissal records with timestamp for children in your class
Run monthly attendance reports for each student

Administrator

Keep track of your campus with real time head count on the Administrative Dashboard
Preload visitor information and track visitor arrivals and departures
Run custom attendance reports (daily, weekly, monthly)
Track absences by illness
Eliminate cost of automated phone call alerts
Invite parents to edit their child's profile via parent portal
Notify parents and staff with group using group text and email

Front Desk

Track staff and campus visitor attendance
Maintain historic log of visitors on the cloud
